Patrick,
Following the procurement guidelines, we need to have at least 2 bidders on this item. I think that if we have not come up with the numbering scheme, we have to do that first. Dimensions and the suggested style will be or has been provided by Josh (?)

Thanks,

Patrick,

The signage needs to be furnished and installed by the GC.

If this will hold the permit issuance set, we can catch this up later. I think that we need to discuss the schemes and numbering format.

Thanks

Josh, thank you for clarifying. So FERC will coordinate signage installation at 999. Please advise if there is anything you will need to OTJ, such as PDF/CAD drawings of the space for use by your Architect/GC.

The signage is being handled through the general contractor for the HQ. Attached is the design information we have.

Josh,

Please send the contact information from your signage vender as well. We can include their product as part of the solicitation package to ensure it is the same as being used at the HQ. Can you reach out to them to give them a heads up that this may be coming? Thanks.

Patrick,

I'm all booked next Wednesday. Is Tuesday or Thursday afternoon OK? Around 1:30k

FERC Team?
